### Single Gender at Oakbrook Elementary

Oakbrook Elementary School offered single gender as a choice this past year in grades 1-4. We had enough interest in the 08-09 school year to have 1 girls class and 1 boys class at each of those grade levels. In order to assign classes for single gender there is a need to have equal participation in boys and girls. After surveying parents, as well as having parents commit to the choice of single gender, the interest level of the OES parents is not present to support single gender for the 09-10 school year. We will continue to provide information about single gender to our families and should the interest arise again, we will provide that as a choice for our OES families.
